

## Sending data to ORoPO

Uploads to ORoPO should be made as text, TSV or CSV files of patent / application publication numbers, with one line per patent number. It can include the kind code, if known, but it's not essential.

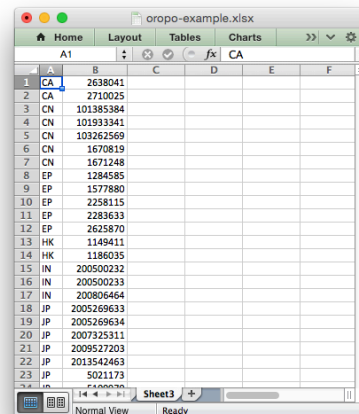

If you have your patent numbers in an Excel spreadsheet in one of the formats shown below (or some similar combination) then it's easy to export.

	A	B	C	D	E

Once the patent numbers are in your spreadsheet in an appropriate form, use the Save As... menu option to export the data as CSV.

The saved CSV file can then be sent to OPOPO via the email address.
